Bear Valley Basin Groundwater Sustainability Agency Agenda Report

DATE: June 16, 2020
TO: Board of Directors
FROM: Reginald A. Lamson, Administrator
RE: **Resolution No. 2020-XX - Addendum No. 1 to the Amended and Restated MOU**

Background & Discussion:

In October 2019, the Member Agencies of the Bear Valley Basin Groundwater Sustainability Agency (BVBGSA) and their respective Boards authorized the amendment and restatement of the Memorandum of Understanding (the Amended MOU) relating to Member Agency contributions to BBARWA's Replenish Big Bear Project (the Project). The Amended MOU established BVBGSA as a clearinghouse for collection of Member Agency contributions to BBARWA. This practice was established with the anticipation that BVBGSA may be eligible for grant funding that might not otherwise be eligible to the individual Member Agencies.

Subsequently, The Replenish Big Bear Team has successfully obtained two grants that provide over \$5 million in funding for the Project. Because ultimately the majority of the Replenish Big Bear facilities will be owned and operated by BBARWA, the grant applications were submitted and awarded to BBARWA. Also, the Replenish Big Bear design agreement with WSC is with BBARWA. To simplify interagency accounting practices and to simplify the budget for BVBGSA, we are proposing a modification to the Amended MOU wherein BBARWA will have the option to directly bill the Member Agencies for authorized expenditures under the Amended MOU rather than billing BVBGSA. If adopted by the Board, the Member Agencies will seek concurrence from their governing bodies.

At the suggestion of legal counsel, to clarify the impact of the proposed Addendum, we have included a redline version of the Amended and Restated MOU executed in the October and November 2019 that shows exactly what terms will be affected.

Financial Impact:

Administrative services provided by the Administrator on behalf of BVBGSA will be significantly reduced. The modification makes no changes in financial commitments made by the Member Agencies.

Recommendation:

Adopt Resolution No. 2020 – XX approving Addendum No. 1 to the Amended and Restated MOU .

RE: Draft Budget FY 2019/20

Background & Discussion:

Pursuant to section 12 and 13 of the Joint Powers Agreement for the Formation of the Bear Valley Basin Groundwater Sustainability Agency, and pursuant to Article 7.3 of the Bylaws of Bear Valley Basin Groundwater Sustainability Agency, the Board is to adopt an annual budget by “resolution or otherwise.”

The City of Big Bear Lake, Department of Water and Power (DWP) is advancing BVBGSA for costs associated with the GSP and will recover those advances from the DWR grant.

Financial Impact:

The proposed Budget is balanced and remains within the funding authorized by the member agencies.

RE: **Fiscal Year 2019/20 Budget**

In Fiscal Year 2019/20, the Bear Valley Basin Groundwater Sustainability Agency (BVBGSA) will pursue two main objectives:

1. Continue to support the efforts of the Replenish Big Bear Project
2. Working toward completion of the Bear Valley Basin Groundwater Sustainability Plan

Replenish Big Bear

Replenish Big Bear is a forward-looking water supply project that protects our community's water supplies well into the future. Upon completion it will supplement the Valley's essential water supplies with hundreds of millions of gallons of clean water each year.

The clean water produced through Replenish Big Bear will be used to enhance water levels throughout the Valley, supporting the area's unique and diverse fish and wildlife. Replenished water levels support the community's recreation and tourism industry and protect the community's drinking water supplies, keeping Big Bear a great place to visit and live.

The member agencies (Big Bear Area Regional Wastewater Management Agency - BBARWA, Big Bear Municipal Water District - BBMWD, Big Bear City Community Services District - BBCCSD, and the City of Big Bear Lake Department of Water and Power - BBLDWP) will continue to move the project through regulatory review and work toward obtaining funding so that the project will be both beneficial to and affordable for the community.

In Fiscal Year 2018/19 each member agency pledged \$250,000 in funding for preliminary design and environmental services. In Fiscal Year 2019/20 an additional \$250,000 was pledged by each member agency.

Bear Valley Basin Groundwater Sustainability Plan

The Bear Valley Basin Groundwater Sustainability Plan (the Plan) is a planning document that may facilitate obtaining future funding for Replenish Big Bear and complies with the Sustainable Groundwater Management Act (SGMA). The Plan is fully funded through a \$177,000 grant from the California Department of Water Resources under Proposition 1. BBLDWP will advance funding for the Plan and be reimbursed with Prop 1 grant proceeds as those are received.

Bear Valley Basin Groundwater Sustainability Agency Agenda Report

DATE: June 16, 2020
TO: Board of Directors
FROM: Reginald A. Lamson, Administrator
RE: **Draft Budget FY 2020/21**

Background & Discussion:

Pursuant to section 12 and 13 of the Joint Powers Agreement for the Formation of the Bear Valley Basin Groundwater Sustainability Agency (BVBGSA), and pursuant to Article 7.3 of the Bylaws of Bear Valley Basin Groundwater Sustainability Agency, the Board is to adopt an annual budget by “resolution or otherwise.”

Attached for the Board’s consideration is the proposed Budget for the Fiscal Year ending June 30, 2021. The budget is balanced and reflects member agency contributions for administrative costs. The proposed budget assumes that the Board has adopted the proposed Addendum No.1 to the Amended and Restated Memorandum of Understanding presented earlier in this agenda. Accordingly, cost associated with Replenish Big Bear will be billed directly to the member agencies, eliminating the BVBGSA clearinghouse process.

Administrative costs include estimated costs for office supplies, bank fees, legal and audit fees. Costs related to the Ground Water Sustainability Plan were carried from fiscal year 2019/20.

Financial Impact:

The proposed Budget is balanced and remains within the funding authorized by the member agencies.

Recommendation:

Review and Comment on the proposed Bear Valley Basin Groundwater Sustainability Agency Budget for Fiscal Year Ending June 30, 2021.

Note: The Public Hearing to Adopt the proposed budget will be conducted on June 29, 2020.

RE: Fiscal Year 2020/21 Budget

In Fiscal Year 2020/21, the Bear Valley Basin Groundwater Sustainability Agency (BVBGSA) will pursue two main objectives:

1. Continue to support the efforts of the Replenish Big Bear Project
2. Working toward completion of the Bear Valley Basin Groundwater Sustainability Plan

Replenish Big Bear

Replenish Big Bear (the Project) is a forward-looking water supply project that protects our community's water supplies well into the future. Upon completion it will supplement the Valley's essential water supplies with hundreds of millions of gallons of clean water each year.

The clean water produced through Replenish Big Bear will be used to enhance water levels throughout the Valley, supporting the area's unique and diverse fish and wildlife. Replenished water levels support the community's recreation and tourism industry and protect the community's drinking water supplies, keeping Big Bear a great place to visit and live.

The member agencies (Big Bear Area Regional Wastewater Management Agency - BBARWA, Big Bear Municipal Water District - BBMWD, Big Bear City Community Services District - BBCCSD, and the City of Big Bear Lake Department of Water and Power - BBLDWP) will continue to move the project through regulatory review and work toward obtaining funding so that the project will be both beneficial to and affordable for the community. In Fiscal Year 2019/20 BBARWA was awarded a grant for \$500,000 for Replenish Big Bear. A second BBARWA grant application for over \$4.5 million has been approved by the Department of Water Resources. BBARWA is finalizing the paperwork for this grant. This grant funding is expected to support regulatory review, design, piloting and potentially cover some construction costs as the Project moves forward.

In Fiscal Year 2018/19 each member agency pledged \$250,000 in funding for preliminary design and environmental services. In Fiscal Year 2019/20 an additional \$250,000 was pledged by each member agency. As Fiscal Year 2019/20 draws to a close, funding from these pledges remains available to continue support for Replenish Big Bear and will be carried forward to, or otherwise reauthorized by the member agencies for use in Fiscal Year 2020/21. The above \$500,000 grant will provide \$125,000 reimbursement to each of the four member agencies.

Bear Valley Basin Groundwater Sustainability Plan

The Bear Valley Basin Groundwater Sustainability Plan (the Plan) is planning document that may facilitate obtaining future funding for Replenish Big Bear and complies with the Sustainable Groundwater Management Act (SGMA). The Plan is fully funded through a \$177,000 grant from the California Department of Water Resources under Proposition 1. BBLDWP will advance funding for the Plan and be reimbursed with Prop 1 grant proceeds as those are received. The Plan is expected to be completed by the end of calendar year 2020. Funding was appropriated for the Plan in Fiscal Year 2019/20. Residual funding and encumbrances from Fiscal Year 2019/20 will be carried forward from Fiscal Year 2019/20 to Fiscal Year 2020/21.

Bear Valley Basin Groundwater Sustainability Agency Agenda Report

DATE: June 16, 2020

TO: Board of Directors

FROM: Reginald A. Lamson, Administrator

RE: **Resolution No. 2020-XX – For the Appointment of Auditors**

Background:

At the May 25, 2017, BVBGSA Board Meeting, the Board collected the Executed Joint Power Agreements (JPA) from the City of Big Bear Lake Department of Water and Power (DWP), Big Bear City Community Services District (BBCCSD), and the Big Bear Municipal Water District (BBMWD) for the formation of a joint powers authority and management of the Bear Valley Groundwater Basin. At the October 18, 2017 BVBGSA Board Meeting, the Board updated the JPA to include the Big Bear Area Regional Wastewater Agency (BBAWRA).

The audit for the fiscal year ended June 30, 2018 was completed by Rogers, Anderson, Malody & Scott, LLP. On March 14, 2019, BVBGSA issued a Request for Proposal (RFP) for Independent Audit Services for fiscal years 2019-2021. At the May 7, 2019 BVBGSA Board Meeting, the Board awarded Lance, Sol and Lunghard with a three-year audit services agreement.

According to the JPA Section 11, “The outside independent certified public accountant selected by the Agency as auditor shall be formally designated by a resolution adopted by the Board of Directors...” As the Board previously selected the audit firm for fiscals year ending June 30, 2019 – June 30, 2021 by motion rather than by resolution, we are asking the Board to adopt a Resolution during this Board meeting, confirming their decision made at the May 7, 2019 BVBGSA Meeting.

Financial Impact:

There is no financial impact.

Recommendation:

Adopt a Resolution No. 2020-XX, confirming the award to Lance, Sol & Lunghard, LLP (LSLCPAs) with a three-year audit services contract.

FORMALLY DESIGNATING AUDITOR**

WHEREAS, Government Code § 6505 requires the Bear Valley Basin Groundwater Sustainability Agency (“Agency”) to make an annual audit of the accounts and records of the Agency, unless the Member Agencies elect to conduct the audit for a two (2) year period.

WHEREAS, the minimum requirements of the audit shall be those proscribed by the State Controller for special districts pursuant to Government Code § 26909 and shall conform to generally accepted accounting principles.

WHEREAS, Section 11 of the Joint Powers Agreement establishing the Agency requires the use of an outside, independent certified public accountant to make the annual audit of the accounts and records of the Agency.

WHEREAS, the outside independent certified public accountant selected by the Agency as auditor is required to be formally designated by a resolution adopted by the Board of Directors stating the effective date of the appointment and the term of the appointment.

WHEREAS, the Agency desires to confirm the appointment of Lance, Soll & Lunghard LLP, an outside and independent accounting firm, to conduct the annual audit of the accounts and records of the Agency.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE BEAR VALLEY BASIN GROUNDWATER SUSTAINABILITY AGENCY as follows:

RE: **Resolution No. 2020-XX - Amendment No.1 to the Joint Powers Agreement**

Background:

At the May 25, 2017 BVBGSA Board Meeting, the Board collected the Executed Joint Power Agreements (JPA) from the City of Big Bear Lake Department of Water and Power (DWP), Big Bear City Community Services District (BBCCSD), and the Big Bear Municipal Water District (BBMWD) for the formation of a joint powers authority and management of the Bear Valley Groundwater Basin. At the October 18, 2017 BVBGSA Board Meeting, the Board updated the JPA to include the Big Bear Area Regional Wastewater Agency (BBAWRA).

According to the JPA Section 20, “The Agency shall obtain insurance for the Board members and general liability insurance containing liability in such amounts as the Board shall determine will be necessary to adequately insure against the risks of liability . . .” We researched obtaining insurance for the Board members and for the Agency and found the cost to obtain insurance far outweighed the benefit to the Agency. Additionally, each member of the JPA has insurance that protects their Board members and each Board member on the Agency Board is a Board member on a member’s Board.

We worked with Best Best & Kreiger and they suggested modifying the language in JPA Section 20 to replace “shall obtain insurance” with “may obtain insurance” which gives the Board flexibility in making the decision whether or not to obtain insurance for the Agency.

Financial Impact:

There is no financial impact.

Recommendation:

Adopt Resolution No. 2020-XX, approving the Amendment No. 1 to the JPA modifying the language in Section 20.

The public entities listed above may be referred to in this Agreement collectively as “Member Agencies”.
